HORRIBLE MURDERS.

Suspicion Strongly Points to Man Arrested And Lodged in Jail.

On Tuesday last, shortly after noon, the news was telephoned to this city from Elmville that Mr. George Smith and son, Mr. James D. Smith, had been shot and killed near that place and just in the edge of this county.

Coroner Graham was notified and went to the scene and held an inquest, the jury returning a verdict in accord with the facts.

It seems that Mr. Smith had had some trouble with a neighbor by the name of Calvin Newton, over the trespass of a horse of Smith's and that Newton had shot the horse.

On the morning of the killing Mr. Smith had gone to Elmville and obtained some fencing wire which he and his son were stringing on the top of the worm fence to keep any animal from jumping.

They had been at work an hour or so when neighbors heard some loud voices in a quarrel (and they allege that the voices were recognized as those of Newton and Smith, followed by five shots in quick succession, after which all was still.

Neighbors becoming alarmed at the shooting, gathered and found the elder Smith dead, lying on his back with a hole shot through the right eye and head, and the younger Smith lying on his face with a hole in his back, and when turned over uttered a few words and passed away. It was found that he had also been shot in the face and side.

So strong was the circumstantial evidence pointing towards Newton as the murderer that Deputy Sheriff Luens and Circuit Clerk Ben Marshall (who had accompanied Sheriff to the place), arrested him and he was brought here and lodged in jail.

It is but right to say, that while the circumstances point to Newton, as the slayer, still he should be given the benefit of the doubt and his denial of guilt until further evidence is adduced. He strenuously denies guilt.

The affair caused great excitement in the neighborhood and in the city.

The family of the murdered men are good citizens and have the sympathy of every one.

Dr. Weaver's Treatment. Scurf purifies the blood, cures head skin eruptions.

AGED LADY HURT.

Mrs. Mary B. Wilson (widow of the late Mr. B. Frank Wilson, of this county, and mother of Mrs. Preston L. Gibson), was so unfortunate as to slip and fall, while walking about her room, and break with a Lexington company and the battery, also from this city, have been ordered to Russellville to guard prisoners charged with assault and who are on trial for that offense.

Dr. Weaver's Syrup and Cerate. Successful treatment for blood and skin diseases.

LADIES BRUISED UP.

While Mrs. Pat O'Brien and Miss Florence Bishop were going to their home on the Versailles pike, a runaway delivery wagon ran into their buggy on Arlington heights, smashing the vehicle and throwing the ladies out. Mrs. O'Brien was considerably bruised and shaken. Miss Bishop had her wrist badly out. Dr. C. A. Fish was called and dressed and closed the wound with several stitches.

Both ladies were taken home.

THANKFUL PEOPLE.

They Are Found In Every Part of Frankfort.

Many citizens of Frankfort have good reasons to be thankful for burdens lifted from aching backs, which they bore patiently for years. Scores tell about their experience publicly. Here's a case of it:

Mrs. Lou Johnson, of 225 Todd street, says: "Off and on for me many years, I have suffered with a heavy, dull aching pain over the kidneys and across the small of my back, the pain running up my back becoming very severe on the least exertion. There was also a weakness of the kidneys which produced an irregular, scalding and excessive condition. I was treated by doctors, and it seemed as though medicine did not act on me. My condition became so serious that I realized the necessity of some immediate relief. About this time neighbor spoke so highly of Doan's Kidney Pills that I could not believe but that they had some merit. My daughter procured a box for me at J. W. Gayle's drug store, and after giving the remedy a good, fair trial, I found it was doing me good. I give my good recommendation and endorsement of what I consider a grand kidney remedy. Doan's Kidney Pills have helped me carry out the claims made for them."

FRANKLIN ASSOCIATION.

This venerable and imposing body of Baptists assembled in the First Baptist Church of this city, at 10 o'clock, on Wednesday morning.

Notwithstanding the heavy rain storm of the early morning and the threatening clouds, a large and representative body of messengers and members of the different churches were present when Moderator T. V. Williams called the assemblage to order.

Rev. Dr. J. J. Taylor, President of Georgetown College, by previous appointment, preached a short, pungent and powerful introductory sermon.

The letters from all but two churches were read, showing very decided and gratifying progress in all lines of church work, but especially was the improvement marked in the large number of members added to the different church rolls and the increase in contributions for missions and other benevolences of the Association.

The reports of the several committees were submitted, and their recommendations generally concurred in.

Generally discussion marked several measures, especially the report of the Executive Board, when Rev. Dr. J. J. Taylor, Rev. Dr. J. R. Saunpey and others made stirring and effective speeches.

Prof. H. K. Taylor, of the Louisville Training School, made a splendid address in advocacy of the work of the Anti-Saloon League, of which Rev. Dr. B. Adams is the President.

After the address of Prof. Taylor, a resolution was adopted requesting Hon. L. F. Johnson, the Democratic candidate for Representative, if elected, to vote for the "County Unit Bill," as it is called, which makes local option operative in every precinct of a county, if the county as a whole, votes for local option.

The Association adopted a number of important recommendations to the churches. Taken altogether, this was one of the best meetings ever held by this body.

The matter of the place for holding the Association next year was placed in the hands of the Executive Board.

The body adjourned at 4:20 on Thursday afternoon.

HAD GOOD TIME.

The children of the Methodist Sunday-school had a nice entertainment on Thursday, at the residence of Mr. Wm. Cronwell, South Shelby street.

FRANKFORD'S FAVORITE THEATRICAL COMPANY.

The Harris-Parkinson Company, easily the strongest popular priced company ever seen here will begin a week's return engagement in this city next Monday night at Capital Theatre presenting *Slaves of the Orient*. Robert H. Harris, who is well known by all the theatre-goers in this city, is still at the head of the company and has surrounded himself with an evenly and well-balanced company, and some of the best plays to be had, as well as the most expensive list of vaudeville acts ever carried by a stock company. This company's popularity in Frankfort is so strong that S. R. O. houses will not greet them nightly. This company, while here last season, played to the largest week's business ever done at the Capital Theatre. Ladies' tickets will be offered for opening night. Seats on sale at Barrett's now. POISONS IN FOOD.

Perhaps you don't realize that many pain poisons originate in our food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of undigested food—or money back. 25c at all druggists. Try them.

ADMITTED TO BAIL.

Deputy U. S. Marshal Frank L. Horn, of Perry county, was attempting to arrest one Irvine Short, a moonshiner, of Knott county, several days since, when Short resisted arrest. Horn was compelled to shoot him, the result being that he died.

Marshal Horn was arrested by the Knott county authorities charged with murder. Under a writ of habeas corpus, Horn was brought here by order of U. S. District Judge Cochran, he having been in the discharge of his duty when committing the offense charged. Deputy Marshal N. J. McDaniel brought Mr. Horn here Thursday, when he was admitted to bail in \$5,000 by U. S. Commissioner W. G. Chapman, and left for home that afternoon.

CINCINNATI EXPOSITION.

At the Merchants' and Manufacturers' Exposition, at Music Hall, in September, one may realize that babies as well as chickens can be raised in incubators. There will be several incubators in which babies are placed at their birth. The machine is like a glass box and the infant can be seen from all sides. An automatic arrangement provides for the circulation of fresh air and a lever carefully regulates the temperature. The infants sleep most of the time, but are carefully fed and weighed at stated intervals. A model nursery will be in the same department, which contains nothing unnecessary, but everything sanitary and immaculate. A baby, which has been subjected to several months in the incubator will be shown. As a rule these children have a fine healthy look and delicate pink flush which gives the idea of out-door country life. The little creatures who battle for a life chance under glass are rather and looking. They wear little white jackets which leave the face free from the muck and feet are carefully swathed. A pink ribbon is for the girls and a blue for the boys. They are very small, but can stretch and yawn like an ordinary baby. Every parent, particularly the mothers, and every medical man will have a profound interest in this work. The incubators will be in charge of trained nurses acting under the direction of a skilled physician, and the entire process of incubating, including the heating, washing, feeding and sleeping of the dainty cherubs will be gone through with. A day nursery and play room where mothers who are visiting the fair may leave their children, will be an addition to the incubator room. In the nursery will be found a sand box, clay modeling table, paper weaving and various games and toys. There will also be a model home nursery, bed room and bath for the little folks which will show parents the modern appliances, inventions and conveniences of every sort for the use of children.

SEPTEMBER SUGGESTION.

"How Psychic Pictures are Made Realities by Auto-Suggestion" is the opening article in the September issue of *Suggestion* (Chicago) a magazine of the New Psychology. This publication deals with psychic research, suggestive therapeutics, auto-suggestion, practical hygiene, memory culture, brain building, the development of correct habits, courage, optimism, and, while recognizing the importance of physical and hygienic laws, it shows the necessity of correct mental attitudes in the pursuit of health, happiness and success. *Suggestion* Publishing Co., 4023 Drexel Building, Chicago, Ill.

Scene from "A Struggle For Gold," at Capital Theatre next week.

\$30,000 WEEKLY BILLS.

The different royalty plays presented next week at the Capital Theatre amount to \$30,000 and must be paid before these plays are given by the Harris-Parkinson Company, which returns to Frankfort for another week's engagement, presenting all heavy royalty bills and carrying a carload of their own scenery. The amount above stated will give the public in general some idea of the great expense attached to theatrical enterprises such as is carried by Mr. Harris and other companies of the same standing. The opening bill will be *Slaves of the Orient* and from the excellent reputation of this company in Frankfort they are assured of a big opening. Ladies' free tickets are issued for Monday night only and are on sale at Barrett's Book Store. The company numbers twenty people and among them some exceedingly clever specialties, and we have made a big success in some of the leading vaudeville theatres of the country. Prices 10, 20 and 30c.

Scrofula, salt rheum, erysipelas and other distressing eruptive diseases yield quickly and permanently to the cleansing purifying power of Burdock Blood Bitters.

HEAVY STORM OF LIGHTNING, WIND AND RAIN.

At 1 o'clock a. m., on Wednesday, this city and vicinity was visited by one of the heaviest storms of lightning, wind and rain which we have had for a long time.

At first the rain and thunder were light, but gradually gained in force and power, aided by a high wind, until it almost reached the dimensions of a waterpout.

The lightning was very vivid and almost continuously flashing. The rain came in sheets. The wind was almost a twister as it would rush up the street and then swing right back on its track, jerking the trees about like corks on a lake.

The fall of water was so heavy that the river rose over three feet by daylight, and Benson creek ran out four or five feet higher than the surface of the river.

A big lot of logs belonging to the Champion Saw-mill and to Kenney Bros. were swept from their moorings and carried down the river over the lock dam to the eddy.

The violence of the storm abated about 8 o'clock, but it rained steadily on until after 5 o'clock.

Altogether it was one of the worst storms of the summer.

The streets in the lower part of the city were transformed into lakes by the gutters choking and many houses were flooded the occupants having to wade out through the water.

CENTRAL UNIVERSITY, DANVILLE.

We have been placed under obligations to Rev. Dr. J. McC. Blagney, President of the Board of Trustees, for a copy of a handsome write up of Central University—its past and present—together with delightful scenes in and about classic Danville, the little city of schools which nestles just between the Blue Grass and the Knobs.

The write up is from the pen of Prof. T. Lindsey Blagney, as well as the views, which were taken by him, the whole being a very tasty and ornate piece of art work.

We desire to return our thanks for the courtesy so kindly extended.

SCALDED.

Miss Jennie Gaines was so unfortunate as to have a kettle of boiling water overturn on her arm, on Wednesday. The member was badly scalded. Surgical attention was rendered at once.

ROMANCE IN THE SERVANTS' HALL.

A much-neglected field of fiction has been pre-empted by McClure's with the appearance in the September number of the first of a series of comedies among the servants, Jean Webster, whose "When Patty Went to College" has become almost a classic of American girlhood, is the discoverer of the romantic life below-stairs, and her stories will reveal for the first time to the average American the undiscovered reaches of humanity that lie beneath the black faces of his servants.

"Gervie Zanne, Gervie Door" introduces the servants of the usual prosperous American family, and weaves a romance full of quiet humor out of the heart-history of the groom.

JAWS

Tightly Locked From Nervous Spasms. Physicians Could Not Prevent Fits.

Dr. Miles' Nerve Cure My Wife.

Dr. Miles' Nerve has been successfully tried in thousands of cases of nervous disorders, but never has it made a better record than when used in the treatment of fits or spasms. Thousands of testimonials prove this, and in nearly every instance the writer has stated that the fits ceased after the first dose of Nerve was given. The statement is repeated in the following:

"Seven years ago my wife commenced having spasms of fits and I called in my home physician and he said she was paralyzed. He rubbed her with salt water and gave her calomel and she eventually got some better, but in a short time she had another attack. She was confined to her bed for three months and the doctor could not help her. She had fits frequently, some times very severe. Her hands would cramp so we could not open them and she finally got so her jaws would become locked. Finally I saw the doctor was doing her no good and ordered a bottle of Dr. Miles' Restorative Nerve. She received so much benefit from the first bottle that I got some more. She has taken a number of bottles but has never had a fit since taking the first dose. She also thinks very highly of Dr. Miles' Nerve and Liver Pills and is never without them. If there is any way of making this testimonial stronger so because of the good the Dr. Miles' Restorative Nerve did my wife—Wm. V. Allen, P. M., Elkville, Miss.

TRI-COUNTY TEACHERS' INSTITUTE.

The County Teachers' Institute for the counties of Franklin, Woodford and Scott, assembled in this city on Monday morning.

There was a large attendance. Prof. M. O. Winfrey, of Middleboro, was the conductor. His work was well conceived and carried out in a thoroughly practical and attractive way.

Several masterly and instructive addresses were delivered, holding the undivided and earnest attention of every one present.

On Monday and Tuesday evenings delightful musicales were given, which were participated in by the very best of our local musical talent.

Especially attractive were the performances of the South family—daughters and sons of Rev. J. K. P. and Mrs. Eudora L. South. This family is singularly proficient in both vocal and instrumental music. A number of very good recitations were made by both the younger and older persons on the program.

Prof. Booth Lowery delivered two pleasant and attractive lectures, bristling with wit and fun, which were enjoyed to the fullest by the large audiences which packed the courthouse until 8. P. M. was enthusiastically the thing to put on the bulletin board.

The Institute was one of the most successful in all respects yet held by this body. Many practical and beneficial suggestions were made, which it is hoped may yet be crystallized into law, and which will advance the great cause of popular education and assist in bringing up the lagging facilities for good school work in the country districts of the State.

Much of the success of this meeting is due to the hard and systematic work of County School Superintendent, Miss Lucy Pattie, and to Prof. Ernest R. Jones, who has stood loyally by Miss Pattie.

THE ONLY WAY.

There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and strong, for the strength will let down and the case will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour risings, rifting, indigestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus. J. W. Gayle.

NO GAMBLING.

Management of the Kentucky State Fair Prohibits All Games of Chance.

There will be no gambling allowed at the big Kentucky State Fair to be held at Lexington, September 18-23. The Board of Control is endeavoring to place the fair on the highest possible plane, and hence declined the number of large monetary offers for gambling privileges which were forwarded to it. This announcement will be greeted with pleasure and approval by the people of the whole State. Some previous fairs held in Kentucky, and even some of the good fairs held at Lexington, have been characterized by certain gambling features that could not be regarded otherwise than as reprehensible, and this decision of the Board of Control not to allow any such devices on the grounds of the State Fair will add to the respect in which the big exhibition will be held.

There will, however, be plenty of sources of varied amusement. The attractions of the Heck World's Fair Pike Carnival Company are of a high class and possess features of the greatest interest, features that are certain to appeal to all who attend the fair. There is marked diversity between the various shows of this company. All are clean, moral and high toned. Several of them are shows that were among the most successful given on the "Pike" during the World's Fair at St. Louis last summer and will be reproduced at Lexington exactly as given at St. Louis.

The famous Duss band of forty-odd pieces will also be a feature of interest. It is one of the greatest musical aggregations ever gotten together, the hobby of a man of millions who leads a band because he loves it more than any other occupation in which he could engage.

The people of the State with or without approval of the decision to allow no gambling at the State Fair, and those who want excitement and amusement and recreation will have it abundantly supplied in much more healthy ways.

State College of Kentucky

Lexington, Kentucky.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, and Mining Engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive tuition, room rent in dormitories, fuel and light, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern. The Legislature appropriated \$60,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the College to supply.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering, instruction in science and in arts.

The State College of Kentucky, though bearing the title of "college" is the only institution in the Commonwealth doing, in any proper sense, university work.

The completion of the College home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education in classic, modern language, literature, science, mathematics, logic, metaphysics, history, and political economy.

No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

For catalogues, method of obtaining appointments, information regarding courses of study, and terms of admission, apply to JAS. K. PATTERSON, Ph. D., LL. D., or to D. C. FRAZER, Business Agent, Lexington, Ky.

OUR SAILOR BOY.

Newport, R. I.

Mr. Geo. A. Lewis, Frankfort, Ky.

Dear Sir:

As I have nothing to do I thought I would drop you a few lines to let you know I am well and still having a good time. I hear from Norfolk, Va., most every week and all of the boys are well and having a good time. They say it is very hot at Norfolk but it seems like it is going to snow up here and there are no flies or mosquitoes here either. There is a good breeze here all the time. There was two or three people killed in a "automobile" accident Saturday. They were coming down a hill at about 67 miles per hour and the driver tried to make a quick turn and the auto ran through the side of a little bridge and a big log ran through the car from one end to the other and through the driver's body and one lady. The car turned over and the people were under it and could not move till about twenty-five of us "sailors" came along and raised the car and the four that was not hurt crawled out but this "chick-en" could not stay there and help get the dead ones out. I got one look under the car and saw that big log through the man and woman's body, and blood, you never saw the like. Some of the brave "sailors" pulled the log out and got the couple from under the car and after they were out I went down to take a look at them and came near "looping the loop." It made me feel funny. I left that place. I don't know who they were and did not

wait to find out, but that night I had a funny dream all right. I saw ghosts and autos and every thing else. The car was all smashed into splinters and so was the driver. We were on liberty and were at the beach and saw the auto "loop" and ran down there (but I did not stay long.)

Some of the many admirers of the ROUNDABOUT may think this is a fairy tale but it is a fact.

The North Atlantic squadron is in here now and there are some good ships in the bunch, about eleven in all. I don't think it will be very long before old "Schnitz" will be on one but I am anxious to see some of the world. I think I will make the "loop" some day. As I have not anything else to tell you people I had better ring off for this time.

Yours truly,
C. J. SHEETINGER,
alias LOL.

LOVE AND POLITICS IN "ZENITH."

An unreasonable Cupid plays hob with mountain politics in Mrs. Woodrow Wilson's newest mingling town tale in the September McClure's. In "The Botanist and the Machine" an election and a love affair at the same time absorb the whole-souled energies of "Mrs. Nitschkan" and her indomitable allies of the "Ladies Aid" through the most exciting days in "Zenith" that Mrs. Wilson has yet chronicled.

How Birdie Green's personality in love upsets the well-laid plans of the "machine" is a tale full of the fresh, breezy humor of the unspoiled West which makes each of Mrs. Woodrow Wilson's "New Missioner" stories a looked-for event in McClure's.

SOOTHING AND COOLING.

The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those that use German Syrup. Trial bottle, 25c; regular size, 50c. At all druggists. 177.

The funeral services were conducted by Rev. Dr. M. B. Adams, on Monday afternoon, and the remains were interred in our cemetery.

ONLY ONE WEEK MORE.

The summer vacation has almost past and soon the small boy will have to sadly shoulder his satchel and his way to school. One week from Monday next the city schools will re-open. Every arrangement is being made to prepare for enlarged usefulness and success under the skillful and watchful care of Prof. H. R. McKee, backed up by an efficient and competent corps of teachers.

COL. NOEL GAINES' ADDRESS TO SOLDIERS SUNDAY LAST.

General Haly, Colonel Hindman.

You, my fellow soldiers:

As I have here listened to your brother officers who have so ably spoken to you, I have been thrilled as I always am, when mingling with my comrades. I am still happier on this occasion, because we are engaged in that which is first of all things else to me, worshipping our God, who alone can bless us and give us peace and happiness here on earth, and who alone can raise us to the realm above, to a life throughout all eternity. Let us drink in and believe all that our gallant officers have said. Such words of cheer and good will shall not go unheeded. Their very able plea for obedience to all orders, respect for authority, love for our State and nation, and love, gallantry and protection for woman-kind, will not be unheard in this camp of Kentucky's soldiers and gallant sons.

While this advice is good; while it can not be given otherwise; yet we must have something which will enable all to take it and profit by it, because we know many do not possess the necessary thing or strength to do it. Advice without means to get the thing advised is useless. A prescription without the remedy is foolish. I verily believe more men have in past ages been lost through mere advice, through advice without the true remedy to kill the evil, than through all the devil's tricks and schemes put together. Advice to a beggar at your back door, to go and eat a big meal, without telling him where, and without giving him the thing to get the meal would brand one as a miser and a man without love for his fellow man in distress. Advice to honor orders, to love our country, to honor and protect our fair women, and to be loyal and brave, will never be heeded, until the True Remedy is first taught, and not then, unless we actually receive it. Why, what man is it that would refuse to do those things, if he knew he possessed the power to do them? Kentuckians will not I know, and Americans will never I am sure. Therefore let us not stop until the Remedy is understood and received.

Feeble man can not furnish this Remedy. Some counterfeits have tried, but all have surely failed. If man can not, then might not the creator of all things do it? Is it not reasonable and sensible to believe the God who created the earth and all the wonderful laws of force and motion, can do it? If we little helms have been able to make two metallic instruments (the wireless telegraph) talk through hundreds of miles of space, can not the Creator of this man and this metal, put a fleshy instrument, a something within man, and likewise telegraph as it were, communicate with him by sending him an unseen message from the throne in heaven?

We must believe it. We know it. For surely the Great God can do more than feeble men, whom He has created. That unseen message is wireless in form, and electrical in effect. It is the Spirit of God. It is sent only to those who humbly repent and firmly believe God is able and will do it. It sets up within you the Kingdom of God.—Luke 4:38; Mark 1:14 and 16; Luke 17:20 and 21 and Rom. 14:17. Of all ages this is the grandest to live in. The great inventions of steam, electricity and telegraph are truly marvellous, and all speak the unlimited power of the Creator. All have come in this generation, and mark the most important era since the creation of this habitable earth. And all are for a grand lesson to those who receive the truth with pleasure, and who are religious towards God. I would rather have the guidance and protection of that All Powerful God,

who is above me and my brother men, and my enemies, than to possess all the wealth in this earth.

A general who is guided by a man in a war balloon, from which the operator sees the movements of the enemy has the advantage over his opponent, because one above him informs him. A man, guided by the God of the Universe, who looks down from above, has the great advantage over all around him. He is a supremely fortunate man; he is a happy man; and he is a real man. We will have genius again in young men. Such genius as displayed by youngsters in ages ago, when these young men will turn their minds and hearts upward to find their hero and their ideal.

You have a young man, as young as many of you, for your commander-in-chief—that distinguished an able man and statesman. Governor Beckham; and you have a younger man still as your adjutant general, that brave, able and loyal commander and leader, General Haly. You also have that gallant and splendid soldier for your colonel whom all love to serve under, Colonel Biscoe Hindman. These young leaders have set the pace. Look up to them and love them, and you cannot help but being loyal men and soldiers. Just as loving your father and mother makes you love your brothers and sisters; if you will love your God the Creator of all, and receive his guidance and power, you will be brave to love and honor all your brother men, whom that God had created. This then is the key, this is the Remedy.

I thank you for your splendid and earnest attention.

STAMPING GROUND.

The Board of School Trustees have elected Prof. Jas. B. Sprake as Principal of the Buffalo Springs Academy, for the ensuing year.

Mrs. Laura Trundle Bower, of Paris, is the guest of her parents, Mr. J. L. Trundle and wife.

Mr. T. J. Wright, formerly of this place, but now of Lexington, visited here last week.

Mr. J. G. Blanton, our undertaker, attended the Funeral Director's Association in Louisville, last week.

Mr. J. W. Jameson has purchased from Mrs. Francis Bond her handsome residence, with four acres of land attached, for \$3,500 cash. Possession to be delivered Sept. 1st.

A terrible accident occurred in the home of Mr. Rolla Kavanaugh, on Tuesday of last week. His little boy got hold of some matches and set fire to his dress, so badly burning himself that he died on Wednesday. The funeral services were conducted at the Baptist Church, on Thursday last, by Rev. G. W. Hill, the pastor, and the burial took place in our local cemetery. The family have the sympathy of our whole community.

GRAVE TROUBLE FORESEEN.

It needs but little foresight to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, and I was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by all druggists, at 50c a bottle.

STRONG Again

Is what Mrs. Lucy Suvalik, of Tilton, Ga. said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the diseases that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weak, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

CINCINNATI EXPOSITION.

The most celebrated manufacturers of office appliances and systems have united to make a display at the Merchants' and Manufacturers' Exposition, September 11, which will not only surpass anything of the kind seen here, but will also exhibit to the public some very new inventions as yet unfamiliar. Among the firms exhibiting will be the Burroughs Adding Machine Co.; The Elliott Fisher Co.; The Hamilton Autographic Register Co.; The Chicago Recording Time Lock Co.; The Oliver Mfg. Co., which exhibits telephone appliances and inventions; The Hayes Wage Tables, demonstrating a system of tabulated wages; The Addressograph Co., and the Clegg Publishing Co., which exhibits expert shorthand and stenographic work taken blind folded and in various languages. The practical exhibits will be universal adding machines of which 17 are employed in one bank alone in Cincinnati, billing machines, loose leaf system, filing cabinets and indexing processes. The interest that this exhibit has for the community, of course, speaks for itself, since all these time saving devices and business aids are becoming more or less typical of an up-to-date office.

WORD AND WORK MAGAZINE.

Rev. Irl R. Hicks, the noted weather forecaster of St. Louis, Mo., has for eighteen years past edited a monthly journal of national reputation, Word and Works. We have received Word and Works at this office and can testify to its value as a family monthly. Prof. Hicks has just decided to change his family monthly to magazine form and with the October number the monthly will be a beautiful magazine profusely illustrated with half-tone engravings. One of the early fall numbers of this magazine will contain Prof. Hicks' weather forecasts for the first six months of 1906. The January, 1906, number will contain the weather forecasts for the second six months of 1906. These two numbers of the magazine will take the place of the Hicks Almanac, which will be discontinued. The number that has heretofore been published in the Hicks Almanac each year will now be found in the magazine and much more. The price of the Word and Works Magazine is 10 cents per copy or \$1.00 per year. Send 10 cents for a copy of the October number, which gives you full particulars of how the Hicks' weather forecasts for a year in advance will now be given to the public. 'IMPOSSIBLE' PORT ARTHUR

Less than a year ago a famous military expert said: "It takes a man drunk with victory and strong and ancient might to dare the risk of taking Port Arthur; human energy and prowess cannot force it; only madmen would attempt it."

What prompted such a positive dictum from such an authoritative source may be realized from the only authentic reproduction in existence of the great battle-field to be exhibited by Lyman H. Howe in Capital Theatre on Tuesday, October 17.

This series of moving pictures in Mr. Howe's new program cannot fail to inspire true sensations of the elemental contest at the apex of the world, where two civilizations were in life and death throes—operations and impressions that nothing short of these graphic, sweeping, animated scenes alone can afford. They begin where all mere description ends. Here is a great army from a warlike nation, equipped for scientific fighting and offered by men trained in the world's best schools; twenty thousand men driven in a hole, men of the same blood that defeated Napoleon, stubbornly contested Sebastopol, and an appalling loss of life reduced the marvellous. Battered against them is an entirely new world power, another army little known and less honored. They are engaged in a mighty struggle on the grandest battlefield the world has ever seen.

Only ten neutrals had the hardihood and pluck to risk their lives in record for history this immortal conflict. Only ten neutrals are accorded the privilege by the Japanese government to do so. Only one of these ten secured an enduring history of it on moving pictures, and this one was the personal representative of Lyman H. Howe. Through special facilities extended him because of his indomitable zeal and personal bravery, by Baron General Nogi, he has secured for Mr. Howe the only absolutely authentic reproduction of moving pictures direct from the firing line of Port Arthur. Mr. Howe will neither sell nor lease them to any exhibitor or theatre in America. They can be seen at his own exhibitions exclusively and form but one of many equally interesting scenes of world-wide interest in the new program.

BIG EXCURSIONS.

There were two big excursions out of this city on Sunday last. One over the F. & C. and K. C. R. R. to Cincinnati, which had a train full. The other over the L. & N., to Louisville, which started from Lexington. It was composed of twelve cars, filled to overflowing. The first excursion returned about 12:30 a. m., and the latter at 1:30 a. m. Monday morning.

THE STRIKE BREAKER.

The fierce hatred of the striking union-man for the "scab," the double traitor who has sold out his comrades and gone back to his job, is the motto of "The Strike Breaker," in the September McClure's, one of the most powerful of recent short stories. George Randolph Chester knows the working man body and soul. He has felt every heart-pang of the starving misery that made his strike breaker out of a rabid union man, and he knows too the despair that fans the fury of the beaten strikers. It is a tale of wild violence and primitive, hot, passions, that seem strangely terrifying, flaring up out of the drab monotony of modern life.

MAGNIFICENT PEACHES.

Mr. Hiter Mitchell, of the Old Crow neighborhood, sent us, on Saturday, a lot of the finest peaches we have seen this year. Mr. Mitchell had a good crop of fruits of all kinds this season, and has a fine orchard on his place. He is a gentle, wholesome gentleman and we tender our thanks for his kind remembrance of us.
